Please ensure that all items on the check list below are complete and included in your application. The Program University Application is the first application that should be filled out. This is a University wide application that is processed through Enrollment Services and ensures that your child is properly in the CUA system. Once this application is complete, you should receive a letter from Enrollment Services with your child’s name and a login number and identification for our CUA Cardinal Station system. This is where all final payments for the program and housing fees can be paid once your child has been accepted into the EIA summer program.

Please print out the forms found on the links on the EIA Website:

Please fill out the forms and mail them in with your 500 word essay, a letter of recommendation and your $100 deposit to:

Experiences in Architecture Program
The School of Architecture and Planning
The Catholic University of America
620 Michigan Ave, NE
Washington, DC 20064

Once the application package is received and is complete, you will receive a letter from our EIA Director with additional program information and housing information if you have selected the room and board option.
