

Entry Level Architect (Recent Graduates)

Arium AE

The Arium AE office of integrated architecture and engineering design is seeking recent architecture graduates with a professional degree to work in our design firm. Our staff of 29 professionals is growing and seeking qualified candidates to add to our team. We are a well-established design practice with commercial projects throughout the Baltimore-Washington Region. Projects are mostly commercial office, retail and industrial, but with a wide variety of other projects including craft breweries, data centers, SCIF's, religious and sports facilities, and laboratories in the Baltimore/Washington Area.

Our office is in Columbia, convenient to Routes 29 and 175, with free parking. We pride ourselves on our family friendly diverse office culture that allows employees to work hard during the day and maintain a healthy work/life balance.

Legal to work in the U.S., strong AutoCAD capabilities and the ability to travel to local project sites is essential. Revit, Sketchup, Photoshop, photography and other computer skills are welcomed as well.

Salary commensurate with ability.
