Opening for a Summer 2016 Intern - Interior Architect/Designer

Esoarc Studio, a woman owned, established growing architectural firm specializing in workplace interiors, is seeking a summer intern for commercial interiors experience. This is a paid position which has often led to full time employment. Conveniently located in the City of Falls Church, Esoarc offers a family friendly, productive, work environment with interesting and challenging projects. This is an opportunity for a recent graduate or a student in an interior design or architecture school.

Responsibilities:

• Assist with field surveying and production of construction documents for on-going commercial interior projects, new construction and/or renovation of existing facilities.
• Learning about design materials by meeting with manufacturers’ representatives, updating the resource library and assisting in pulling materials for projects.
• Preparing original architectural drawings, renderings and limited design assignments under general supervision.

Required:

• A senior or graduate student currently enrolled in a design/architecture program at an accredited school.
• Work experience, enthusiastic, highly motivated and a team player with good communication skills.
• Skilled at AutoCAD, MS Office Suite and Adobe Creative Suite.
• Basic knowledge with creating plans, elevations and materials.
• Experience with Sketch Up and creating a set of construction documents is a plus.
• Candidate must be able to receive instruction on specific assignment objectives and independently provide solutions for these objectives.
• Must provide own transportation to and from approved business meetings outside the office.

Email a resume and PDF portfolio (2MB max) of most recent examples of skills to dmcgrath@esoarc.com. Phone calls are not accepted or returned.
