Graduate Transportation Planning Internship

AECOM is a global provider of professional technical and management support services to a broad range of markets, including transportation, facilities, environmental, energy, water and government

The Company is looking for a current graduate student to intern during the summer of 2015 to work on transit projects in the Washington DC area. Work may include field data collection, public participation exercises (distributing surveys and meeting information, attending public meetings), developing GIS maps, data analysis (via excel), developing graphics, report writing, and data analysis (via excel). The intern will work on tangible projects and learn basic transportation planning concepts and skills. In addition, the intern maybe expected to help out on other projects in the office. Our office works on transit operations (bus/rail), NEPA projects, station access plans, and other transportation planning related tasks.

Minimum Requirements:
- Currently pursuing a Master’s degree in urban planning, transportation planning, or a similar field
- Must have finished at least 1 year of degree program
- Proficient in Microsoft Office (Word, Powerpoint, and Excel)
- Proficient in GIS
- Willing to work outside standard business hours when needed
- Currently residing in the Washington, DC area or willing to relocate for the duration of the internship (during the summer)
- A positive attitude and ability to work collaboratively with others

Preferred Qualifications:
- Adobe Creative Suite (Photoshop, Illustrator, InDesign)
- Portfolio (up to 5 work samples, no larger than 3MB)
- Prior relevant work experience

If interested, please send an email to Lyle Leitelt at lyle.leitelt@aecom.com with the position’s title in the subject line and attach a cover letter and recent resume. Emails should be no more than 3MB if you are including a portfolio. If you have any questions, please email Lyle.

Qualified candidates will be interviewed immediately.
