

Location: Washington, DC

Status: Full-Time

Disciplines: Architecture

Type: Professional

Firm Background:

Dale Overmyer Architects was established in 1996 with a focus on custom residential design. The firm has designed projects for clients in Washington, D.C., Virginia, Maryland, Massachusetts, New York, and Florida. We employ a strong focus on traditional design and historic preservation. Services include site evaluation, project analysis, programming, historic review process and presentation, schematic design, landscape design, interior design, construction documents, bidding, contract negotiation, and construction administration. We also enjoy a collaborative relationship with a number of landscape, engineering, and interior design professionals. The office currently employs eight associates and is located in the Georgetown neighborhood of Washington, D.C. and is a 2012 winner of the AIA DC / Washingtonian Residential Design Award.

Job Description:

Our office is looking for a recent graduate for a full-time, entry-level position with benefits. As an intern architect, some assignments will include:

- Documenting existing conditions
- Assisting with the execution of construction documents and presentation drawings
- Generating 3D renderings
- Various office-related tasks

Skills / Qualifications:

- Architectural Degree required
- Proficiency in CAD required, knowledge / proficiency in Microstation V8 preferred.
- 3D rendering and design experience preferred (Adobe Photoshop / InDesign / Sketch Up / etc).
- Excellent communication, organizational, interpersonal and computer skills.
