

Junior Architect

Design Builders, Inc.

We are a residential renovation business headquartered in Bethesda, Maryland. Our work for our clients focuses on high-end/luxury home renovations.

We are looking for a passionate, enthusiastic, driven, 'out of the box' thinker to join our team as our Junior Architect. In the past, we have outsourced our design/architecture needs and are at a place of growth where we now need to bring someone in-house on a permanent basis.

The Junior Architect will work directly with the clients to support them in establishing the 'vision' for their home renovation goals. The Junior Architect's project renderings/designs will serve as the foundation from which the CEO and construction team will work.

The position collaborates with and reports directly to the CEO. There is a tremendous amount of professional growth opportunity.

Requirements:

- *At least 2-4 years of solid design experience working on projects/for clients
- *Strong customer service and enthusiasm for working with clients
- *Ability to quickly understand client's renovation needs and execute renderings in a timely fashion
- *Strong multi-tasker
- *License is a plus
