

Architect/Designer (5-8+ years' experience)

Job Description:

Full-time position with five to eight+ years professional experience. Perform technical, production, and design coordination and oversight as an integral part of a design team or at times in a more independent capacity. Collaborates with principals, manages a team and works on multiple projects. Responsible for planning/design/coordination consultation on small/large projects. Requires a bachelor's degree in architecture. Applicant must have the capacity to learn and thrive in a fast paced design environment.

Knowledge, Skills and Abilities:

- Bachelor's degree in Architecture required, Master's degree a plus
- Prior professional architecture experience required
- Understanding of materials, methods, and building construction
- Extensive professional Revit Architecture experience required (develop families, design options, sheet setup, non-typical forms modeling, etc.)
- Professional AutoCAD, Rhino 3D, Adobe Creative Suite, MS Office experience required
- 3D modeling/rendering, 3DS Max, V-Ray, Microstation, Grasshopper experience a plus
- Construction document and Job Captain experience required
- Architect license a plus

Essential Duties and Responsibilities:

- Defines program requirements and establishes design parameters based on client requirements and working with senior architect/senior urban designer and project manager.
- Creates and develops overall design concepts, schematic, design development and construction documents through detail level; formulates/leads design presentation strategies and makes presentations.
- Collaborates with design team members during the implementation of design to ensure clarity and quality of concept is maintained through detail level.
- Collaboration with other design/construction disciplines, interacting with client technical staff and client meetings.
