

## **Intern I/Designer (1-4 years' experience)**

### **Job Description:**

Full-time intern with one to four years professional experience, develops design and technical solutions under supervision of architect, project manager, and Principal. Requires a bachelor's degree in architecture. Responsibilities include: performing as part of a team, or in a more independent role on a range of public urban design and architecture projects. The applicant must have the ability and interest in contributing a range of tasks for projects from design concept to construction documentation. Attention to detail, and the ability to learn and thrive in a fast paced studio environment is key.

### **Knowledge, Skills and Abilities:**

- Bachelor's degree in Architecture required, Master's degree a plus
- Professional architecture experience a plus
- Professional Revit architecture and AutoCAD experience required
- Rhino 3D, Adobe Creative Suite, MS Office literacy required
- 3D modeling/rendering, 3DS Max, V-Ray, Microstation, Grasshopper experience a plus
- Construction document experience

### **Essential Duties and Responsibilities:**

- Defines program requirements and establishes design parameters based on client requirements and working with senior architect/senior urban designer and project manager.
- Creates and develops overall design concepts, schematic, design development and construction documents through detail level; formulates/leads design presentation strategies and makes presentations.
- Manages design process for specific tasks and projects; leads/supports the work of other designers and technical staff.
- Collaborates with design team members during the implementation of design to ensure clarity and quality of concept is maintained through detail level.
