Architect Intern (Level I)
Leuterio Thomas LLC is a provider of architectural and structural engineering services in Prince George’s County, Maryland with core services that includes architecture, engineering, design build, BIM technologies, new building design, renovations, historical facilities, seismic repairs, condition assessment reports, and facility management technologies such as CAFM & CMMS to the commercial and federal communities.

Leuterio Thomas LLC is committed to creating a diverse environment and is proud to be an equal opportunity employer. We offer competitive compensation and benefits and are searching for innovative people to join our team.

We are currently seeking an Architect (Level I) to work out of our National Harbor, Maryland office.

Primary Job Responsibilities:

- Demonstrated thorough knowledge of architectural design, detailing, building materials, building codes, construction techniques, and costs
- Designs innovative architectural concepts in direct response to user, programmatic, environmental, and cultural contexts
- Selects, evaluates, and implements architectural procedures and techniques to complete projects
- Performs design computations, compiles data, and completes architectural assignments
- Prepares project estimates and architectural plans as requested
- Defines and develops functional and spatial requirements of new structures or renovations, and prepares information regarding design, specifications, materials, color, equipment, estimated costs, and construction time
- Writes specifications as assigned, coordinates with material manufacturers, and inspects raw materials
- Prepares and reviews design documents, construction documents, shop drawings, and materials for compliance with design intent and program requirements
- Develops design drawings, such as plans, sections, elevations, and models using hand drawings as well as advanced CAD and 3D software
- Visit job sites to conduct inspections, verifications, and progress evaluations
- Solves complex problems in connection with the architectural design of projects
- Experience and competency coordinating with clients, consultants, contractors, and others during various stages of project development
- Effective verbal and written communication skills
- Organized, with the ability to work on multiple projects

Minimum Requirements/Qualifications:

- Bachelor’s degree in Architecture from accredited college or university is required
- Minimum of 1 to 3 years of Architecture design experience
- Experience using BIM software, such as Revit 2012 or later
- Proficiency with Adobe Photoshop, Illustrator and In-Design

If you would like to apply for this position, please submit your CV along with relative examples of work to the following email address: info@leuteriothomas.com. Reference Architect (Level I) Position in subject line. We thank all applicants for their interest; however, only those selected for an interview will be contacted.
