

Project Architect- Full Time Position

Delta is looking for a graduate with a Bachelor's Degree or Master's Degree in Architecture to fill our full time position as an Project Architect in our Chevy Chase, MD office. They would need at least 8-10 years of relevant experience and a Registered Architect license is required. Lead Project Architect experience is also a must.

The Project Architect will work with preliminary direction from the Project Manager or Group Leader to develop design solutions which are incorporated into contract documents by the design team. He or she will also participate in predesign, planning and all phases of project design through construction administration. The Project Architect may also work on several concurrent projects.

Delta was founded in 1976 with the vision to provide a company where employees could enjoy going to work every day. That vision has since grown, making Delta a solid company that revolves around integrity, respect, and technical expertise. Delta is proud to be ranked as one of Central New York's Best Places to Work in 2015 and 2016!
