Creative Design Resolutions, Inc. (www.creativedesignresolutions.com) is a growing design firm specializing in Bridge and Highway Aesthetic Design for Departments of Transportation and their outsourced engineering firms almost exclusively. We are currently seeking a talented Project Designer to join our team and grow with the company. Ideal candidate will have 2-3 years of experience in the fields of architectural design and must have strong free hand ability and be proficient in AutoCAD, Adobe Photoshop and MS office. The selected individual will play key roles in developing design concepts to the productions of construction documents and will work directly with Principal and Project Managers. Additional knowledge and experience with 3D Max, Adobe Photoshop and After Effects is a plus.

Required Qualifications:
- Bachelor’s degree from an accredited school of design
- Two to three years' professional experience preferably in an architectural or interior design firm
- Proficiency in AutoCAD is mandatory
- Possesses fundamental knowledge of architectural drafting rules
- Proven ability to meet deadlines without compromising the design/technical intent
- Ability to read, understand, and produce construction drawings and shop drawings
- Ability to organize and perform multiple tasks concurrently and efficiently
- Excellent time management and organizational skills
- Accuracy and attention to detail
- Strong basic math skills

Bonus Skills, not required:
- Experience with 3D modeling software, specifically 3D Studio Max, and texturing skills.
- Experience with the Adobe Creative Suite for image editing, especially Adobe After Effects for motion graphics, video compositing, and post-processing.

A work sample is required in order to be considered for this positon. Please include your resume, cover letter, and portfolio (Max. of 6 MB).
