

R. McGhee & Associates Architects- Staff Architect/Designer

R. McGhee & Associates Architects is a small award winning architectural firm with offices in Washington, DC and Baltimore, MD specializing in architecture, sustainable design and historic preservation of small to medium sized commercial, institutional and residential projects. We are looking for a talented, resourceful and self-motivated professional to join our growing firm.

Candidate must have a degree in architecture from an accredited university for consideration as well as four to two to three years of professional experience working on projects from schematic design through construction documents with strong Revit skills. Design ability and good technical, organizational and communication skills a plus.

Full time opportunity available. If interested in learning about our new and exciting projects, please forward resume and salary history to info@rmc-architects.com. We provide a fun and friendly workplace environment, competitive salaries and excellent benefits.

We offer a salary commensurate with knowledge and abilities. Also, we provide an excellent opportunity for those seeking to gain the diversified experience required for the AXP registration exam.
