STAFF ARCHITECT

FOX Architects (www.fox-architects.com) is an award winning firm changing the DC skyline with large scale corporate commercial buildings. We have immediate openings for talented Staff Architects to join our architecture/base building studio. Our team is located in the heart of downtown Washington DC, just three blocks north from McPherson Square Metro (blue/orange/silver). The selected individual will assist in developing design concepts, participate in all aspect of the project and be part of the best architecture team.

We offer excellent salary and benefits in a dynamic, fun and forward thinking environment. Everyone’s ideas are valuable and teamwork is encouraged and celebrated. We are proud of our excellent client base, positive working environment and vision for our future. If this sounds like the sort of organization you would like to work with, we’d like to hear from you!

Roles and Responsibilities:

- Assist Senior and Project Architects, Project Managers, Senior Designers and Principals in the execution of project specific tasks, including financial accountability.
- Capture design concepts through renderings.
- Evaluate, select and apply basic design skills and techniques to project related assignments.
- Execute administrative tasks assigned by Studio Leaders, and Project Managers.
- Manage technical projects small to medium size in nature with supervision.

Job Requirements:

- Minimum 4 year degree or graduate degree in Architecture.
- Embody FOX’s values: Client Relationships, Best People, Integrity & Respect, Stewardship, Collaboration & Innovation and Excellence.
- Willingness to learn and be mentored.
- Superior verbal, written and presentation skills - always ready to impress.
- Knowledge of construction methods and systems appropriate to the firm’s work.
- Proficiency in Revit, Adobe software and Microsoft Office Suite a must.
- Possesses strong organizational and time management techniques.
- Ability to organize and perform multiple tasks concurrently and efficiently.
- Ability to work independently or on a team.
- Proven ability to meet deadlines without compromising the design/technical intent or relationship with fellow workers.

How to Apply

Please submit your resume and portfolio (no larger than 2MB) to our career website here. Selected candidates will be contacted by our Corporate Recruiter. Thank you for your interest!
